Church at Ross Bridge

• Prayer Garden & Columbarium •

To the south side of our sanctuary, we have plans for a **prayer garden** and **columbarium**. The **prayer garden** will be a reverent space of reflection and prayer, open to our church and community. The **columbarium** will have over 400 niches available for purchase to hold the ashes of our members and friends who choose to be in-urned. There will be a fountain feature in the center of the columbarium to remind us of our baptism in Christ, which is the basis for eternal resurrection hope for Christians. The columbarium will serve as a resting place at the church for all those who have served, supported and grown in our church during their time on earth.

We anticipate final plans and pricing for niches will be available in 2024.
